IAALS COLLOQUIUM IN BARCELONA, SPAIN
23 – 24 OCTOBER 2017

COL·LEGI D’ACTUARIS DE CATALUNYA
Dear Colleagues,

I wish to welcome you to the Colloquium “Long-Term Saving in an Ageing World”, run under the auspices of the International Actuarial Association — Life Section (IAALS). This event is to be held in Barcelona, (Spain), 23 and 24 October 2017 and organized by the Col·legi d’Actuaris de Catalunya, (Catalan Actuaries Association).

The seemingly unstoppable growth in human life expectancy, which coupled with the current state of health and social services, has led to a remarkable rise in longevity right across the face of the Earth.

While this may be heralded as great news for mankind, it nevertheless lays down a major challenge to both private and public pension schemes, the life insurance industry as a whole and therefore the actuarial profession itself.

In this event, entitled; “Long-Term Saving in an Ageing World” we aim to take a closer look at the matter mentioned above and the repercussions implied by it.

For this purpose, we are privileged to count upon the participation of the following specialists on the subject, who will share their wisdom and insight on the theme: Dr Nicholas Barr, Professor at the London School of Economics and Dr Stéphane Loisel, Professor at the University of Lyon.

We are confident that the Colloquium will also provide participants unfamiliar with the city with an ideal opportunity to get to know Barcelona, now one of the world’s most visited metropolis, with its outstanding, cultural, leisure and gastronomic delights.

Looking forward to seeing you in Barcelona in October 2017.

Miquel Viñals
Chairman of the Col·legi d’Actuaris de Catalunya.
COSMOCAIXA
Address: Isaac Newton, 26 - 08022 Barcelona, Spain  

The building's history started more than a century ago, in 1904, when the architect Josep Domènech i Estapà used the Modernista style of the time to construct the Amparo de Santa Lucía institution, in operation for 75 years.

In 1979 the "la Caixa" Foundation commissioned the architects Jordi Garcés and Enric Sòria to remodel and enlarge the building to house the Science Museum, becoming Spain's first interactive museum dealing with scientific themes. The subsequent refurbishment to transform the museum into CosmoCaixa was designed by the architects Robert and Esteve Terradas and the new centre opened its doors on the 25th of September 2004.

Dr. Nicholas Barr. With a MSc in Economics from the London School of Economics and a PhD from the Berkeley University in California. He's a Professor of Public Economics at the London School of Economics (LSE). He is author of numerous articles, and author or editor of more than twenty books. At the heart of his work is an exploration of how market failures can both explain and justify the existence of welfare states. He's one of the world’s greatest specialist in pensions.

Dra. Montserrat Guillen is Chair Professor of Econometrics at the University of Barcelona and director of Riskcenter. She is currently Honorary Visiting Professor in the Faculty of Actuarial Science and Insurance at City University London. She was Visiting Research faculty at the University of Texas at Austin and Visiting Professor at the University of Paris II. She is co-editor of the North American Actuarial Journal and senior editor of Astin Bulletin. She is Academician of the Spanish Royal Academy of Economics and Finance and Honorary Member of the Col·legi d’Actuaris de Catalunya.

Dr. Stéphane Loisel. With a PhD in applied mathematics from University of Lyon, a MSc in Actuarial and Finance Science. He is a fellow of the Institute de Actuaires. Professor at ISFA, Université Lyon 1, and associate researcher at CMAP, Ecole Polytechnique. Associate Editor in various journals, and is a specialist in longevity risks, among other things.
CALL FOR PAPERS

STRUCTURE OF THE SCIENTIFIC PROGRAM

The LIFE Colloquium aims to look into the issue of ‘Long-term saving in an ageing world’.

This umbrella topic will also take in an important number of sub topics, such as:

- Longevity and ageing
- Limits to human life
- Mortality at old ages and related trends
- Stochastic Modelling of Longevity
- Longevity risk
- Longevity bonds
- Protection against longevity
- Financial and real assets to cover long term liabilities
- Annuities, programmed withdrawals, other withdrawals
- Long term care saving products.
- Behavioral patterns of long term saving
- Barriers to saving
- Interest rates: how to survive in a low interest rate environment
- Public pensions and the need to top them up

LIFE Colloquium 2017, devised as an initiative of the International Association of Actuaries, aims to become a global and inclusive congress, where those related to the industry, academic spheres, policymakers, civil servants and of course actuaries, can share their concerns and insights into the matter under discussion. This is why, in addition to the presentation of more technical and theoretical contributions, practical applications, new approaches, international experience and industry case studies will all be firmly welcomed.

The industry, academic spheres, policymakers, civil servants and of course actuaries, can share their concerns and insights into the matter under discussion: Long-term saving in an ageing world.

SCIENTIFIC COMMITTEE

A Scientific Committee will review proposals and then the contributions submitted, before determining whether they are suitable for inclusion in the Colloquium. The Scientific Committee is authorized to accept or reject proposed contributions and to suggest or require modifications to contributions as a condition for acceptance.

Factors taken into consideration by the evaluation committees include the following:
• Does the proposed contribution address key issues facing the profession or indeed is it of general interest to the public at large?
• Does the proposed contribution add to the body of technical actuarial literature or to the development of actuarial practice?
• Does it have the potential to provoke new currents of thought and discussion?
• Does the proposed contribution have a practical value to practicing actuaries?
• Is the topic of potential interest to actuaries in one or more specialization?
• Are the issues and ideas expressed clearly and professionally?

Contributions of an overtly commercial nature will not be accepted for inclusion in the program.

Prizes
The Scientific Committee will award prizes for the best paper in the following categories:
• **Theoretical contributions**: For the best academic research.
• **Practical contributions**: For the best essay or presentation of applied work.

The Scientific Committee will determine the number of prizes and cash amounts awarding up to US$ 1,000, for each category.

**SUBMISSION PROCEDURE AND RULES FOR PROPOSALS**

**PROPOSAL REQUIREMENTS**

Each proposal must be sent to: papers.iaals.barcelona2017@actuaris.org and include the following elements:

- **Type**: Indicate whether the submission is intended as an academic research document (theoretical contribution) or practical contribution.

- **A PDF file with the following information:**
  - **Title**: This should be concise and reflect the content of the contribution.
  - **Author(s)**: Please include professional affiliation(s) for each author; and contact details (including e-mail address) for the corresponding author.
  - **Abstract**: Provide a summary abstract of the contribution (maximum 300 words), including those issues the contribution addresses. The outline should give a succinct and adequate account of the purpose, methods, results/conclusions, and relationship to existing literature.

- **Indicate whether the full paper will be sent.** The full paper should be on a PDF file, no more than 30 pages long, with standard margins and font-size 12. In terms of quality of contents and presentation, it should meet the standards of recognized professional and scientific journals. The front page should display the name and affiliation of each author, full postal and electronic address of the corresponding author, title of the paper, and an abstract that needs to be self-contained (no reference to items in the body of the paper) and legible to non-specialists. Pages should be numbered. The text should be organized in numbered sections. Formula numbers should appear on the right and be of the form (3.2) (second formula in Section 3). Footnotes should be avoided as far as possible. References should be
arranged alphabetically, and chronologically where the same author is quoted more than once. For journal references give author(s), year published in brackets, title, journal in italics, volume in boldface, and pages. For book references give author(s), year in brackets, title in italics, and publisher.

✔ Presentation: Please describe, if necessary, the methodology (e.g., case study discussions, small group discussions, games, quizzes/tests of knowledge, role plays) envisaged for use to encourage audience interaction.

Papers may be written in English, Spanish or Catalan.

The final presentation must be written in English and should be approximately twenty minutes in length. We recommend up to 20 slides.

**PROVISIONAL ACCEPTANCE**

The Scientific Committee will short-list contributions for presentation on the basis of the synopses submitted and communicate their decision (acceptance or rejection and possible feedback) to each individual corresponding author no later than 31st March 2017.

**FULL PAPER/PRESENTATION AND ACCEPTANCE**

A complete version of the paper or the presentation file is to be submitted to papers.iaals.barcelona2017@actuaris.org no later than 31st May 2017. The Scientific Committee will determine the draft scientific program to be undertaken and notify each individual corresponding author whether their work has been officially accepted by 30th June 2017. The draft program including abstracts accepted for the Colloquium will be posted on Website shortly after.

**TIMELINE**

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>March 31th 2017</td>
<td>Deadline for authors to <strong>submit proposals</strong> for potential contributions, including an abstract. See proposal requirements above</td>
</tr>
<tr>
<td>April 30st 2017</td>
<td>Provisional acceptance. Authors informed of results of committee review of proposals</td>
</tr>
<tr>
<td>June 15th 2017</td>
<td><strong>Full papers/presentations</strong> due for committee review</td>
</tr>
<tr>
<td>June 30th 2017</td>

</tbody>
</table>

The earlier author submits their abstracts, paper and presentations, the greater priority they will be given to receive prompt confirmation of whether they have been accepted.
As part of acceptance of a paper for presentation, authors grant permission to the IAA Life Section for subsequent non-exclusive use of the paper or presentation materials on the website of the colloquium.

Previous publication or presentation: Please make it clear, should the paper or presentation (or a mainly similar work) has been previously published or presented at another event, indicating when and where and if whether any copyright issues should be addressed.
